2/21/2024	Clivus or Cinderella composting toilet system for the town hall and library waste needs. Runs on propane or ING. They have been proven reliable and were designed specifically for people in our predicament. Greatly decreases capacity of septic field needed since most water used in those buildings is for flushing.	Daniel Bills Lori Johnson Glenn Rogers	https://www.thecabindepot.com/collections/cinderella-incinerating-toilets	IDEA 1 (combined with IDEA 9 during 3/19/2024 meeting)
2/21/2024	Cross the river to find new disposal sites but also look for expanding the users for a community system. This will keep O&M cost down and help more people with onsite disposal limitations.	Rebecca DaVannon		IDEA 2
2/21/2024	A collective municipal pumping contract. Then everyone benefits from municipal service and the town can negotiate for best rates with an assistance program or tax credit or reimbursement for regular inspection?	Rebecca DaVannon	Nags Head, NC, Catskill Watershed Corporation Septic Maintenance Program, Gwinnett County, GA., Clayton, NY (Depauville Sewer District), Homer, Alaska and Kachemak City, Alaska septic as some examples.	IDEA 3
2/21/2024	Collaboration with other municipalities on a regional, watershed, or county level. Perhaps pooling resources to solve a problem many face. For example, a lower browns river community system	Rebecca DaVannon		IDEA 4
2/27/2024	1705 Property as a space for a new town office (TO) as well as parking, stormwater solution, and septic. Known to have at least the capability for a 4 bedroom house or 490 gpd. Need property owner permission to investigate septic capacity and also brownfield issues	Lori Johnson Glenn Rogers		IDEA 5 (combined with IDEA 10 during 3/19/2024 meeting)
2/27/2024	Other private properties near the Village Center with possible septic field capacity.	Lori Johnson		IDEA 6 (combined with IDEA 11 during 3/19/2024 meeting)
2/27/2024	Town-owned property on 128 near the river (where welcome sign was), land would need to be investigated for septic soils.	Lori Johnson		IDEA 7
2/27/2024	WCH property is recognized to have septic capacity, though a detailed study has not been done and total capacity is unknown. This is a private business, so they would need to be contacted and agree to a study	Lori Johnson		IDEA 8
2/27/2024	Biohabitants, Presby, and other novel septic systems	Lori Johnson		IDEA 9 (combined with IDEA 1 during 3/19/2024 meeting)
2/29/2024	Build a mound system on 1705 Property, with or without the current buildigns on the site. We could use this for the Town Office/Library or, if the Town Office is moved to a new location, use the mound system for properties around the Common	Glenn Rogers Dan Strobridge		IDEA 10 (combined with IDEA 5 during 3/19/2024 meeting)
2/29/2024	Pump the septage uphill on the same side of the road to open fields on privately owned property	Glenn Rogers		IDEA 11 (combined with IDEA 6 during 3/19/2024 meeting)
2/29/2024	Place modern port-o-lets (like you see at ski areas) on the common that can be in place all year round	Glenn Rogers	https://www.802restrooms.com/	IDEA 12 (Idea removed from consideration during 3/19/2024 meeting)
3/12/2024	Hold. Wait for, say, 1 year. See if time uncovers things since the current municipal system is functioning	Bill Hill		IDEA 13
3/12/2024	Use Town Garage property which can include a new Town Office to free up septic capacity for the Library	Paul Birnholz		IDEA 14
3/12/2024	Maple Shade as amended by petition submitted 12-8-2023	Petition Signers (195)		IDEA 15
3/12/2024	Mound system on the Town Common	Bill Hill		IDEA 16
4/1/2024	Move library to the WES building to free up WW capacity for the Town Office. Or, move the Town Offices into the WES.	Art Woolf		IDEA 17
